Abstract

The text of your abstract. 100 or fewer words.

Keywords: 3 to 6 keywords, (don't reuse words appearing in title)

*The authors gratefully acknowledge

Figure 1: Consistency comparison in fitting surrogate model in the tidal power example.

Table 1: D-optimality values for design X under five different scenarios.

| one | two | three | four | five |
|------|------|-------|------|------|
| 1.23 | 3.45 | 5.00 | 1.21 | 3.41 |
| 1.23 | 3.45 | 5.00 | 1.21 | 3.42 |
| 1.23 | 3.45 | 5.00 | 1.21 | 3.43 |

1 Introduction

Body of paper. Margins in this document are roughly 0.75 inches all around, letter size paper.

- Note that figures and tables (such as Figure 1 and Table 1) should appear in the paper, not at the end or in separate files.
- In the latex source, near the top of the file the command `\newcommand{\blind}{1}` can be used to hide the authors and acknowledgements, producing the required blinded version.
- Remember that in the blind version, you should not identify authors indirectly in the

text. That is, don't say "In Smith et. al. (2009) we showed that ...". Instead, say "Smith et. al. (2009) showed that ...".

- These points are only intended to remind you of some requirements. Please refer to the instructions for authors at <http://www.tandfonline.com/action/authorSubmission?journalCode=utch20&page=instructions#.UieFdDafgx0>
- If you have Supplementary Material (eg software, data, technical proofs), identify them in the section below. In early stages of the submission process, you may be unsure what to include as supplementary material. Don't worry - this is something that can be worked out at later stages.

2 Methods

Don't take any of these section titles seriously. They're just for illustration.

3 Verifications

This section will be just long enough to illustrate what a full page of text looks like, for margins and spacing.

The quick brown fox jumped over the lazy dog. The quick brown fox jumped over the lazy dog. The quick brown fox jumped over the lazy dog. The quick brown fox jumped over the lazy dog. **With this spacing we have 30 lines per page.** The quick brown fox jumped over the lazy dog. The quick brown fox jumped over the lazy dog. 4 Conclusion

SUPPLEMENTARY MATERIAL

Title: Brief description. (file type)

R-package for MYNEW routine: R-package MYNEW containing code to perform the diagnostic methods described in the article. The package also contains all datasets used as examples in the article. (GNU zipped tar file)

HIV data set: Data set used in the illustration of MYNEW method in Section 3.2. (.txt file)
